

CPA Rising Pharmacist Spotlight: September 2022

Name and title: Francesca Amici, PharmD

Current position: Specialty Clinical Pharmacist at Yale
Outpatient Specialty Pharmacy

Years in practice: Less than 1. I graduated in May of 2022!

Inspiration to practice pharmacy: I was always intrigued by how a medication can get into the body and “know” exactly what to do and how life-changing it can be for patients. My curiosity for how medications actually work in the body to help patients and my love for chemistry led me to pursue pharmacy school.

Proudest accomplishment: One of my proudest accomplishments so far is becoming inducted into the Rho Chi Pharmacy Honor Society during pharmacy school. My proudest accomplishment during my short post-graduate career so far would be finding a career at the specialty pharmacy that makes me excited to go to work each day!

Future aspirations: Some future aspirations include becoming a certified specialty pharmacist and continuing to increase my knowledge in specialty medications in order to provide the best care for my patients.

Fun Fact: I spent a couple weeks in Sicily this summer after graduation. While I was there, I had the chance to witness a “mini eruption” from Mount Etna!
